

Cloth Mask Challenge 2.0

“Caring for the Community”

After reaching our initial goal of 8,000 cloth masks to provide to our staff, AnMed Health is re-launching our challenge to the community – this time, to provide face-coverings for patients and their caregivers in anticipation of potential shortages.

AnMed Health now requires all patients arriving for appointments or procedures to wear a face-covering. This policy applies to patients arriving at all hospital campuses, emergency rooms, outpatient facilities and physician practices. We’re asking for your support in providing these masks to those who may not have one.

As businesses in our community begin to reopen, AnMed Health encourages residents to continue wearing face coverings whenever in public and to continue practicing social distancing and good hand hygiene.

Details about making/delivering fabric masks

- *No specific pattern or style is required*
- Donations of bandanas accepted as well
- Use tightly woven cotton fabric
- When fabric masks are complete, please drop them off at the AnMed Health Women’s and Children’s Hospital at 2000 East Greenville Street, Anderson, S.C., or the AnMed Health Cannon Emergency Department at 123 WG Acker Drive, Pickens, S.C. Staff are available to accept items at either location 24/7.

Thank you for thinking of our staff, patients and community during this time! We are truly "in this together!"
