### **AnMed Health offers drive-through flu shots**

*(Anderson, S.C. – Sept. 18, 2020)* –Patients of AnMed Health do not need to come into the office to get their flu shots this flu season. They can instead make an appointment to visit a drive-through flu shot clinic at the AnMed Health North Campus flag pole, starting Wednesday, September 23.

AnMed Health's primary care practices in the outlying communities will also hold their own curbside flu shot clinics on various dates. An appointment is needed to receive the vaccine. Established patients can schedule an appointment through MyChart or by calling their primary care medical home or AnMed Health's centralized scheduling office at 864.512.2255.

They can also visit AnMed Health's CareConnect locations, where shots can be obtained for \$20 each.
